Senior Software Developer

Profile

Summery

Highly skilled and detail-oriented Senior Frontend Developer with over 8 years of experience in designing, developing and managing complex websites and applications.

Specializes in modern JavaScript frameworks like React.js, Vue.js and Angular.js and has a keen interest in user experience design.

Coding Skills.

I have an excellent eye for fashion and trends, has ensured modern aesthetics and convenience in the homepage layout and has received favorable reviews from users as a flexible designer and excellent front end developer.

My career

I have had the privilege of working in global companies, where I have actively contributed to the development process using the Agile Scrum methodology.

This experience has honed my collaborative skills and has given me a deep understanding of the importance of teamwork and delivering high quality software within tight deadlines.

Continuous learning

I stay up-to-date with the latest industry trends and technologies to provide innovative solutions.

I am a quick learner and adaptable to new technologies and frameworks, enabling me to tackle diverse and challenging projects with ease.
