PROFILE

I'm a passionate software engineer who began programming in grade school. With a focus on frontend and full-stack development, I've collaborated with a diverse range of companies, from small startups to large communities. This experience has given me a deep understanding of the web lifecycle, from initial architecture to final deployment.

WORK EXPERIENCE

Fanatics   05/2022 - 08/2024
Senior Full-stack Engineer

- Develop and implement cutting-edge Full-stack solutions that enhance user experience and meet business objectives.
- Collaborate with cross-functional teams to ensure seamless integration of new features and technologies.
- Maintain brand consistency and high-quality standards across all web interfaces and applications.

Beyond Co   01/2020 - 03/2022
Senior Frontend Developer

- Lead the design and development of user-centric web interfaces, ensuring responsive and accessible experiences across devices.
- Collaborate closely with backend engineers, designers, and product managers to deliver cohesive and innovative digital solutions.
- Drive the adoption of best practices in frontend development, including performance optimization and code maintainability.

Deloitte   09/2017 - 12/2019
Web Developer

- Architect and build scalable frontend systems, enhancing user engagement and satisfaction.
- Oversee the implementation of new technologies and frameworks, keeping the team at the forefront of industry trends.
