ABOUT ME

Senior Software Engineer with over 8 years of front-end development experience. Proven track record in global companies, delivering high-quality web applications and user interfaces. Expert in HTML, CSS, JavaScript, and modern front-end frameworks like React and Angular. Strong problem-solving skills and a collaborative approach to work. Dedicated to continuous learning and leveraging new technologies to improve development processes and product quality.

EDUCATION

University of Cebu

**Bachelor of Engineering and IT
2011 - 2015**

- Academic Excellence: Majored in Software Development with consistently high grades.
- Research Involvement: Contributed to innovative projects as part of a research team.
- Awards: Received multiple awards for academic and project excellence.
- Capstone Projects: Completed several capstone projects, demonstrating practical skills.

WORK EXPERIENCE

Senior Software Engineer

Dotsub   **07/2023-07/2024**

- **Led a Team of Developers**: Managed and guided a team of 7 software engineers, ensuring timely and high-quality delivery of projects.
- **Website Development**: Built several high-traffic websites, leveraging JavaScript and its frameworks like React, Vue, and Next.js to create dynamic and scalable web applications.
- **Enhanced User Experience**: Implemented advanced UI/UX principles to develop user-friendly interfaces, significantly improving the overall user experience and engagement.
- **Performance Optimization**: Optimized website performance through efficient coding practices and the use of modern tools, resulting in faster load times and better user retention.
- **Collaboration and Innovation**: Collaborated with cross-functional teams to innovate and integrate new features, such as real-time video captioning and multilingual support, enhancing the product's value and usability.

Senior Software Developer

Colorado   **07/2020-07/2023**

- **Team Lead**: As a software developers, coordinating project activities and ensuring the successful implementation of various web development projects.
- **Full-Stack Development**: Developed and maintained full-stack web applications using JavaScript, React, Vue, and Next.js, delivering robust and scalable solutions for clients.
- **Code Optimization**: Enhanced application performance by refactoring existing codebases, reducing load times, and improving overall efficiency and responsiveness.
- **Feature Integration**: Worked closely with product managers and designers to integrate new features, such as user authentication and data visualization, into the company's web applications, increasing functionality and user satisfaction.
- Code Review and Quality Assurance: Participated in code reviews and quality assurance processes, helping to maintain high coding standards and best practices within the development team.

FAIZAN LARSON

SENIOR SOFTWARE ENGINEER

EXPERTISE

- **Front-End Development**: Extensive experience in building responsive and user-friendly web applications using HTML, CSS, and JavaScript.
- **Modern Frameworks**: Proficient in utilizing popular front-end frameworks such as React and Angular to create dynamic and efficient user interfaces.
- **Cross-Browser Compatibility**: Skilled in ensuring web applications work seamlessly across different browsers and devices for a consistent user experience.
- **UI/UX Design**: Strong understanding of UI/UX principles, enabling the creation of intuitive and visually appealing interfaces.
- **Performance Optimization**: Expertise in optimizing web applications for speed and performance, enhancing user satisfaction and engagement.
- **Collaboration & Problem-Solving**: Proven ability to work collaboratively in team environments, effectively troubleshooting and solving complex issues to deliver high-quality solutions.

SKILL SUMMARY

- HTML
- CSS, Tailwind CSS, Bootstrap, SCSS
- Javascript, JQuery
- React, React Native
- Vue
- Angular
- Next
- PHP, Laravel, Node
- Python, Django
- MySQL, Mongo
- Wordpress, Shopify
- AWS, Docker
- Time management

Junior Software Developer

TravelPerk   **04/2018-03/2020**

- **Feature Development**: Contributed to the development of new features for the company's travel management platform, using JavaScript and related frameworks to enhance user functionality and experience.
- **Bug Fixing and Maintenance**: Assisted in identifying and fixing bugs in the codebase, ensuring the stability and reliability of the platform for users.
- **Collaborative Projects**: Worked closely with senior developers and other team members on various projects, gaining valuable experience and improving overall project outcomes through teamwork.

Web developer

DWS   **01/2016-03/2018**

- **Web Development**: Developed and maintained web applications using JavaScript, PHP, and Laravel, delivering comprehensive full-stack solutions that met client needs.
- **Backend Integration**: Implemented and optimized backend services using PHP and Laravel, ensuring seamless data flow and integration with front-end components.
- **Custom Feature Implementation**: Created custom features and functionalities for web applications, enhancing user experience and meeting specific client requirements.
- **Database Management**: Managed and optimized databases to ensure efficient data storage and retrieval, improving overall application performance and reliability.
- **Code Review and Quality Assurance**: Participated in code reviews and quality assurance processes, helping to maintain high coding standards and best practices within the development team.
