SENIOR SOFTWARE DEVELOPER

FAIZAN
LARSON

About Me

As an experienced frontend software engineer, I excel in developing state-of-the-art, responsive, and intuitive user interfaces, utilizing technologies like React and Vue.js. My work emphasizes delivering seamless user experiences through clean, efficient coding and modern design practices. By staying up-to-date with the latest industry trends, I ensure that my projects reflect the forefront of web design and development advancements.

Education

Bournemouth University
Bachelor of Computer Science
2012 - 2016

Created an image recognition app using convolutional neural networks for the final project.

Earning the Student Academic Recognition Award

Studied Software Engineering and AI

Language

- English
- Polish (basic)

Experience

Colorado
2022 - 2024

I worked on integrating front-end and back-end systems to create seamless web solutions.

I specialized in developing responsive web applications, focusing on enhancing user interfaces.

TravelPerk
2019 - 2021

I contributed to software that improves workplace safety and compliance, leveraging my skills in creating efficient and scalable applications.

My work included front-end development and integration with backend systems.

DWS
2016 - 2019

I contributed to software solutions that enhance workplace safety and compliance management.

I developed web applications with a focus on responsive and user-friendly interfaces

Skills Summary

Skill	Level
HTML	93%
